

**STAFF REPORT TO THE
FAIRFIELD TOWNSHIP ZONING COMMISSION
MEETING DATE: June 16, 2021**

CASE:	FTZC21-3C
APPLICANT:	NVR, Inc.
LOCATION:	Hamilton-Middletown Road (S.R 4) A0300-023-000-066, A0300-023-000- 063, A0300-023-000-083
CURRENTLY ZONED:	B-2 General Business District
REQUEST:	Zone change from B-2 to R-PUD- Residential Planned Unit Development District

SITUATION OF PROPERTY

The subject property is located on the north side of Hamilton-Middletown Road (State Route 4) and north west of the intersection of State Route 4 and State Route 4 Bypass (Att. 1), situated between Creekside Drive, Indian Meadows Drive and Reigart Road. The subject property is comprised three parcels totaling 37.665 acres. The subject parcels are all currently zoned B-2, General Business District. Properties to the north are zoned R-2, properties to the west are zoned B-1, properties to the east are zoned R-1 and B-2, and properties to the south are zoned B-PUD (Att. 2).

DESCRIPTION OF REQUEST

The applicant has submitted a Preliminary PUD plan and is requesting a zone change from B-2 (General Business District) to R-PUD (Residential Planned Unit Development District) on three parcels that are comprised of a total of 37.665 acres.

FINDINGS OF FACT

The Preliminary PUD for the Walden Springs subdivision includes 62 duplexes on 124 residential lots on the 37.665 acres. The proposed lots would have a minimum square footage of 5,000 sqft, front yard setback would be 30 ft (from back of curb), side yard setbacks would be 6' and 0 ft (0 ft applies to common lot lines only), and rear yard setback would be 5 ft. The proposed open space is 42.4% (16.00 acres) which exceeds the minimum 25% requirement. The development is a cluster subdivision that integrates open space throughout the development. In addition, proposed open space includes a dog park, a water quality basin east of Indian Meadows Drive, a 50 ft buffer along the public roads to the west, south, east, as well as a 50 ft buffer along the existing residential development to the north. The landscape plans show the inclusion of street trees placed halfway between each home and the curb, on both sides of the street throughout the development. The landscape plan also shows landscaped gateways at both of the site's entrances, on Indian Meadows Drive and Creekside Drive. The proposal shows the existing natural vegetation remaining along Hamilton-Middletown Road. The vegetation in this

area is unmanicured and is comprised of invasive honey suckle and many other low value trees. Plans show 5 ft wide side walks on both sides of the internal streets. In addition, the applicant is requesting a waiver for sidewalks along Hamilton-Middletown Road.

Walden Spring – R-PUD Proposed Lot Information

Front Yard Depths	Side Yard Widths		Rear Yard Depth
	One	Both	
30 ft.	5 ft.	10 ft.	30 ft.

The development plan states that construction would be completed in 2 phases over a period of 4 years. Butler County Water and Sewer will provide public utilities to the site. Water mains have been stubbed on the east and west sides of the property. Public sanitary sewer runs through the middle of the development, portions of the sewer will need to be relocated for the development. Both water and sewer utilities are of adequate size and have capacity available to serve this development. The applicant stated that private streets will be constructed in accordance to Butler County Engineers' Office standards and will contain curb and gutter.

Butler County Planning Commission

The Butler County Planning Commission has recommended approval of the proposed zone change for Walden Springs with comments. The 12 comments provided by Butler County are provided below.

1. Walden Springs Drive & Lane should be constructed 28-ft in width. Travertine & Layton Court, Calistoga Circle and north end of Walden Springs Drive/Court can be constructed at 25-ft AND restrict parking on side of street containing watermain.
2. Lots 121 and 122 do not have road frontage.
3. Provide sidewalks along Indian Meadows Drive and Reigart Road on open space parcel.
4. Provide internal pedestrian connection between Travertine and Calistoga.
5. What landscape plans are envisioned for open space along Reigart Road? Will this lot be maintained by the HOA?
6. Comply with Ohio Environmental Protection Agency (OEPA) National Pollutant Discharge Elimination System (NPDES) Permit for Storm Water Discharges Associated with Construction Activity.
7. Submit a preliminary drainage report per Section 4.07 of the Subdivision Regulations.
8. Need to abandon any existing septic tanks with permits and inspections from Health District. Any existing private water wells need to be abandoned by a private water contractor with Health District inspections.
9. Note the HUC 12 Receiving waters on plat.
10. Plat will need basement note-> high water table.
11. Extend sewer to upstream boundary to Reigart Rd, across water quality basin property.
12. 30' san sewer easement required on lot fronting Reigart Rd.

Relevant Sections of the Fairfield Township Zoning Resolution:

616. R-PUD PLANNED UNIT DEVELOPMENT DISTRICT

PURPOSE. The Residential-Planned Unit Development District (R-PUD) is intended to provide a permissive and alternate zoning procedure for residential development and housing. The Planned Unit Development District shall be used only when a relatively large landholding under unified ownership is planned and developed as a unit in accordance with an approved overall Preliminary PUD Plan and subsequently detailed Final PUD Plan for each section of the total landholding. The planning and development of the Planned Unit Development shall be carried out in such a manner as to have minimum adverse effects on the natural features and environment of the planned unit tract and its surrounding areas. Planned Unit Development typically features varied setback lines, dwelling types and “cluster” type site planning whereby provisions for maximum overall “gross” density are established to permit creation of usable common space without jeopardizing the overall intent of the Zoning Resolution or the public health, safety and welfare.

616.2 DESIGN STANDARDS.

(c) COMMON OPEN SPACE. There shall be reserved, within the tract to be developed on a planned unit basis, a minimum percentage of land area of the entire tract for use as common space.

The minimum percentage of land area to be reserved shall be 25%. This common open space shall not consist of isolated or fragmented pieces of land, which would serve no useful purpose.

Included in this common open space may be such uses as pedestrian walkways, parkland, open areas, golf courses, bridle paths, drainage ways, swimming pools, clubhouses, tennis courts, and other lands of essentially open character, exclusive of off-street parking areas and street rights-of-way. Ownership of this common open space either shall be transferred to a legally established Homeowners Association or be dedicated to Fairfield Township and proper legal documents necessary for such transfer or dedication shall be approved by the Fairfield Township Trustees. Common open space that includes clubhouses, golf courses or other recreational facilities may remain in private ownership. However, size of such areas shall be determined by the Fairfield Township Board of Trustees. If accepted by the Township, all areas except for any open space areas so donated which are in excess of the minimum requirements approved hereunder shall be restricted to open space uses.

615.2 PROCEDURE.

(b) The Zoning Commission may explicitly impose special conditions relating to the Planned Unit Development with regard to the type and extent of public improvements to be installed, as well as to landscaping; development, improvement and maintenance of common open space; and other pertinent development characteristics.

Fairfield Township Vision Plan

The Future Land Use Map shows the proposed property reserved as Business Planned Unit Development (B-PUD).

Recommended Residential Design Guidelines (excerpts)

- Utilize cluster subdivisions as the preferred design option particularly where a substantial proportion of open space generates more compact lot layouts.
- **At least 20% of the gross land area should be active open space,** which may include parks or recreation areas, trails, public squares, etc. Recommended natural resource protection of wetlands, floodplains and natural habitats is in addition to this 20% open space.

STAFF COMMENTS

Based on the staffs review of the submitted plans, it appears that the applicant's proposal has taken surrounding property owners' feedback and concerns into consideration. The plan's inclusion of a 50' buffer along the existing development to the north is an example of that. To further protect the value and safety of future residents, staff would like to see the existing vegetation along Hamilton-Middletown Road be removed and replaced with an HOA maintained vegetated buffer/berm/fence combination. Staff would also like to see sidewalks continued on both sides of Indian Meadows drive and along the roads that abut the water quality basin parcel. Township staff would also like to see some a landscape plan to improve aesthetics for the area around the water quality basin, also to be maintained by the HOA. To further embrace the intent of the Fairfield Township Vision Plan, staff would also like to see an increase of active open space within the development. One major point of concern mentioned by Butler County pointed had to do with the proposed 24' wide private roads within the development. County Staff stated that the roads should be constructed "28-ft in width. Travertine & Layton Court, Calistoga Circle and north end of Walden Springs Drive/Court can be constructed at 25-ft AND restrict parking on side of street containing watermain." The township is concerned with how this may impact access for emergency vehicles.

The zone change to a R-PUD on the property if approved would not be an endorsement of the precise location of uses, configuration of parcels or engineering feasibility which are to be reviewed in the subsequent preparation of the Detailed Site Development Plan to be reviewed as part of the Final PUD process. If the property is rezoned to R-PUD and the Preliminary PUD is ultimately approved by the Fairfield Township Board of Trustees, the applicant will then be required to seek approval of the Final PUD plan.

STAFF RECOMMENDATION

Based on the findings of fact, the Fairfield Township Zoning Resolution, the Fairfield Township Vision Plan & the submitted proposal, staff makes the recommendation to **approve with conditions** the request to change the property to a R-PUD.

ACTION:

The Fairfield Township Zoning Commission shall recommend to the Fairfield Township Board of Trustees to either approve, approve with conditions, or deny, the applicant's request for a zone change.

Should the Zoning Commission **approve** the applicant's request, the following conditions should be considered:

Conditions of Approval

1. Incorporate comments submitted by the Butler County Planning Commission.
2. Walden Springs Drive & Lane should be constructed 28-ft in width. Travertine & Layton Court, Calistoga Circle and north end of Walden Springs Drive/Court can be constructed at 25-ft AND restrict parking on side of street containing watermain.
3. Remove existing scrub and deciduous vegetation along Route 4 and replace with HOA maintained berm and evergreen buffer to provide a visual and sound buffer from Rt. 4.
4. Continue sidewalks on east side of Indian Meadows Drive and connect to existing sidewalk.
5. Continue sidewalk along Reigart Rd. near proposed Water Quality Basin #1
6. Enhance landscaping and aesthetics of the parcel where the proposed Water Quality Basin #1 is located.
7. Increase areas of active open space, parks, trails, gathering areas, ect. Add a connection from.
8. Turning radius in the development shall meet the fire vehicle specifications shown in attachment.
9. Utilize street trees within the development.
10. All utilities should be placed underground.
11. Hydrants should be installed with 5" Stortz Fittings instead of the Threaded connection on the steamer fitting

Chuck Goins

Zoning Administrator, Fairfield Township
