SUBJECT: Request to Purchase Shelving and Cabinets for Weapons and  
Ammunition Storage

Mrs. Vonderhaar:

As the new section of the police department has improved our storage capacity significantly, we have found that we need shelving for ammunition, weapons storage and work bench for weapons repair and cleaning. Currently, some of the items are either stored on the floor or in boxes (please refer to attached photos). Additionally, the weapons and ammo were improperly stored in a small closet with no room for cabinets or storage bins in the old section of the building. As our new current Spacesaver file cabinet system in the Clerks' office was obtained from Patterson-Pope and as Patterson-Pope is also a state bid vendor, Sergeant Brandon McCroskey contacted Gordon Kwiecinski, Sales Representative, who came to our facilities, identified the needs based on the dimensions of the storage room, obtained our input and provided the attached proposal and outlay.

This is a one-time purchase with a total state bid cost of \$11,083.94 and will include installation with a lead time of 17-18 weeks from receipt of the purchase order.

# PLANNING GUIDE

STORAGE SYSTEMS

## WeaponWRX™ STORAGE SYSTEM

### SUMMARY

The WeaponWRX™ Storage System is a highly flexible weapon storage shelving system that combines attributes from, and shares components with the UWR®, FrameWRX® and Cantilever shelving product lines. The system uses a 36" wide cantilever frame, a back panel borrowed from the UWR, and a sloped cantilever shelf punched with the same pattern as the UWR Universal Base.

### APPLICATIONS

This product is perfect for weapons storage applications in law enforcement armories, police department evidence rooms, and museums.

### SIZES

The WeaponWRX back panel is only available in the following sizes:

- 36" Wide x 84" Tall
- 36" Wide x 49" Tall (for WRX Wheels® Transport System)

The new WeaponWRX 3" Sloped Universal Base Shelf and Sloped Adjustable Universal Shelf are only available in 36" Wide x 13" Deep (nominal).

All other sizes will need to be quoted via the ETO process.

### UNIVERSAL SHELVES

The WeaponWRX 3" Sloped Universal Base Shelf and Sloped Adjustable Universal Shelf both come as kits that include left and right cantilever 13" deep sloped shelf brackets. The 3" Sloped Universal Base shelf is intended to be used at the bottom of the frame and creates a finished look and a toe kick. The Sloped Adjustable Universal Shelf can be mounted anywhere on the frame. The shelves are punched with the same slot pattern as the UWR universal base. Each can accommodate the UWR stock cups. When used in conjunction with the standard or standard-transport barrel supports each shelf can accommodate 10 rifles across. This is the same as the 42" wide UWR.

### BACK PANELS

The WeaponWRX back panels are punched with the same pattern as the UWR back panels and can accommodate any UWR component that can mount to the UWR back Panel. The back panels are One-piece, flat sheet steel that mounts with TEK screws to the front of the cantilever frame uprights during product installation.
