

FAIRFIELD TOWNSHIP
RESOLUTION NO. 23-30

RESOLUTION APPROVING REPLACEMENT OF THE WATER LINE AT HEROES PARK FROM CURRY & SONS CONSTRUCTION COMPANY AT A TOTAL COST OF \$35,000.00.

WHEREAS: Replacing the water line from the concession stand to the water meter is needed due to the water line breaking after water was shut off in November; and

WHEREAS: After receiving three bids Curry & Sons had the best price, and we will take out of Fund No. 2272;

NOW, THEREFORE, BE IT RESOLVED, by the Board of Trustees of Fairfield Township, Butler County, Ohio, as follows;

SECTION 1: The Board hereby approves replacing the water line at Heroes Park by Curry & Sons Construction Company, at a total cost of \$35,000.00.

SECTION 2: The Board hereby dispenses with the requirement that this resolution be read on two separate days, pursuant to RC 504.10, and authorizes the adoption of this resolution upon its first reading.

SECTION 3: This resolution is the subject of the general authority granted to the Board of Trustees through the Ohio Revised Code and not the specific authority granted to the Board of Trustees through the status as a Limited Home Rule Township.

SECTION 4: That it is hereby found and determined that all formal actions of this Board concerning and relating to the passage of this Resolution were taken in meetings open to the public, in compliance with all legal requirements including §121.22 of the Ohio Revised Code.

SECTION 5: This resolution shall take effect at the earliest period allowed by law.

Adopted: February 14, 2023

Estimate Details

Install a new 2" waterline from the meter pit to the concession building. Process of this installation is to jack hammer a concrete block at the building where the copper waterline and plastic line transition underground. Excavate a hole 40 feet in the yard from the building. Directional bore underground to the concession stand and pull in a copper line underground to the hole 40 feet from the building. This eliminates all plastic underground of the concession stand. Install 560 feet of Plastic PE pipe from the meter pit underground to the copper line stubbed out from the building. Process of this installation is to excavate down at the meter pit by the road, and 300 feet from from the building. Directional bore underground to the hole with the new copper and pull back new 2" PE line to the 2nd hole 300 feet away. Then directional bore from the meter pit to the hole 300 feet away and continue pulling back the 2" line in one continuous run. Tie the new 2" waterline into the meter pit, and tie it into the concession building. Backfill spoils at the meter pit and holes in the yard and restore the yard back, pour concrete back into the hole at the patio at the concession building.

Task #	Description	Quantity
Plumber/Excavating Crew	2 Plumbers with 88 Excavator/Operator and a Tri-Axle Dump Truck/Labor.	2.00

THIS IS AN ESTIMATE, NOT A CONTRACT FOR SERVICES. The summary above is furnished by Curry & Sons Construction Co. as a good faith estimate of work to be performed at the location described above and is based on our evaluation and does include material price increases or additional labor and materials which may be required should unforeseen problems arise after the work has started. I understand that the final cost of the work may differ from the estimate, perhaps materially. THIS IS A GUARANTEE OF THE FINAL PRICE OF WORK TO BE PERFORMED. I agree and authorize the work as summarized on these estimated terms, and I agree to pay the full amount for all work performed.

	Water Main	1	44,287.00	44,287.00
	Replace the waterline from the meter setting to the building with 2" Type K copper and 2" HDPE about 600'. We will directional drill the new line under the building and out to the meter setting. The line will transition from copper to HDPE outside of the building. The HDPE will have a tracer wire. Couplings will be marked with sight tubes. The line will be pressurized and tested. The area will be backfilled to rough grade. Any concrete will be sawcut, removed and the area will be repoured. The soft surfaces will be seeded and strawed.			

TOTAL **\$44,287.00**

We hereby submit specification and estimate for plumbing to install new 2" water line from meter pit to concession building. We will install new 2" copper water line from building to grass area to eliminate plastic under building and then run new 2" plastic waterline from the point of the new copper to the meter pit approximately 600 feet.

We will backfill around pipe with sand and backfill hole with spoils we dig out and restore the yard. We will backfill the hole near the building and pour concrete back in.

We will provide all labor and material complete in accordance too the above specifications for the sum of **Forty thousand eight hundred forty-five dollars and no cents (\$40,845.00)**.

Sincerely
