Ohio HB47: Improving Cardiac Safety Across Schools and Recreational Facilities

Ohio HB47, a crucial legislation passed recently, mandates the installation and maintenance of Automated External Defibrillators (AEDs) across all school districts and recreational facilities in Ohio. This law, which takes effect in January 2025, is a significant step towards bolstering emergency preparedness and enhancing cardiac safety in educational and public recreational spaces.

What's Changed vs. Current Ohio AED Laws

- **Mandatory Installation:** AEDs are no longer optional; installation is now required by law.
- **Universal Coverage:** AED requirements extend to all public, charter, community, and STEM schools, as well as recreational facilities in areas with populations over 5,000.

- **Standardized Training:** Comprehensive AED and CPR training is now mandated for key staff across impacted institutions.

WHAT'S CHANGED IN OHIO?

CURRENT OHIO LAWS

- Optional AED installation
- AEDs are not required in public, charter, community, and STEM schools, as well as recreational facilities
- CPR and AED training is recommended for key staff

VS

UPDATED OHIO LAWS

Who It Impacts and How

- **Public Schools:** Every public school must have an AED, potentially requiring budget adjustments for equipment and training.
- **Chartered Nonpublic Schools:** These schools must ensure AEDs are installed and key staff are trained, aligning with public school standards.
- **Recreational Facilities:** Facilities in municipalities, counties, and townships with over 5,000 residents must be equipped with AEDs, increasing readiness for cardiac emergencies.
- **Youth Sports Organizations:** Access to AEDs during practices and games is mandatory, ensuring quick response capabilities.
