RENEWAL PRESENTATION

1. This is intended to be a summary. Please refer to the proposal/contract for additional details. Every effort has been made to complete this summary as accurately as possible; contract provisions shall prevail.
2. Final rates are subject to plan election, actual enrollment, effective date of coverage, and the results of the underwriting process.
3. The data, analysis, descriptions, exhibits, and charts in this proposal are to support the conclusions and suggestions stated here. AssuredPartners NL is available to explain any item presented. It is assumed the recipients of this proposal will seek an explanation of anything that is not understood.
4. The information contained in this proposal may contain confidential information intended only for the individual or entity named. Any dissemination, distribution or copying of this summary is strictly prohibited.
5. DO NOT, under any condition, cancel your current insurance coverage without receiving written approval from the proposed carrier's home office.
6. Out of network providers are not contractually obligated to accept the usual, customary and reasonable (UCR) allowable amount as determined by the insurance carrier. The patient is responsible for any balance above the UCR amount in addition to co-pays, deductibles and co-insurance. The amount above UCR does not accumulate toward the out of pocket maximums.
7. AssuredPartners agencies are licensed as insurance producers by the various States where we are transacting insurance, which includes the sale, solicitation, and servicing of insurance business, as well as advising on the relative benefits of certain insurance policies and risk management programs. Our agencies typically receive compensation from insurers in the form of commissions paid as a percentage of the premiums due the applicable insurance companies. Commissions can vary by insurance company, by volume of business placed with that company or the profitability thereof, and other factors. In other cases, and depending on various State laws and the capacity in which our agency is acting, our agencies may receive other forms of compensation from insurers, insurance intermediaries, premium finance companies and other vendors; such as contingents, overrides, profit-sharing, premium finance fees, expense reimbursements, producer subsidies, award trips, meetings and other incentives. We also earn interest on premiums we hold until it is time to pay the applicable insurance companies.
8. Our overriding desire is to provide great customer service, having you, the customer, believe we have earned our compensation. We believe in full disclosure of our compensation. Accordingly, if you have any questions about the compensation we receive from your policies (including policies we propose to you), please just ask your account representative, who will gladly provide you a summary of our compensation arising from your policies (some estimation may be necessary, for example where contingents are involved).

Renewal 2025

Dear ERCHealth Member-Company:

We would like to express our sincere gratitude to all our member companies and broker partners for entrusting ERCHealth with the opportunity to support your efforts in managing health risks and controlling health insurance costs over the past 25 years.

Below is a summary of key program highlights. For further resources, please refer to **ShareFile** (our electronic distribution site) for additional materials. You will receive a link to this information on Friday, May 2nd

Prevention Focus for the Future

With the changing dynamics of employer/employee relationships and the work environment, ERCHealth is committed to offering meaningful opportunities for members to focus on prevention. Members have the choice of having the preventive services that make sense for them, at the right time. We offer a \$100 reward through the Sydney Smart Rewards menu for wellness exams for enrolled employees and enrolled spouses! Additional prevention opportunities include rewards for appropriate cancer screenings.

In our new environment, enrolled employees and enrolled spouses can seek preventive care exams through various settings (in-person and virtually). While the gold standard for a preventive exam remains, in-person with a physician who sees you for all primary care needs, we believe an annual touch point through a virtual setting is better than none at all!

Anthem's PreventiveRx Plus

PreventiveRx covers drugs (150+ Rx) that may keep an individual healthy because they may prevent illness and other health conditions. Utilize the PreventiveRx Drug List provided in your suite of materials to promote this program with your enrolled members. This \$0 cost share benefit should be positioned as a key benefit in your overall benefit offerings.

Return of Premium Surplus

Offering clients unique opportunities to save has always been a hallmark of the ERCHealth program and continues through our return of premium surplus program. Groups with 12 months of mature experience with ERCHealth will be eligible to receive a return of premium based on their individual annual claims experience to premium ratio. ERCHealth will offer a premium credit of 25% of available surplus up to a maximum of 10% of premium. For specific parameters on the return of premium surplus arrangement, please refer to your Anthem Simple Refund Rider.

For those clients that qualified for a return of premium, the surplus illustrated in your renewal exhibit will be credited to your October 2025 invoice. For clients with multiple invoices, work with your broker partner and Anthem to apportion accordingly.

ERCHealth Service and Support

ERCHealth offers clients *and* members, a customer service experience, saving our busy HR professional's time! Service and Support focuses on addressing inquiries as well as providing enhanced member communications for ease. In our first nine months of providing this service, 45% of inquiries submitted were from our members!

Take care of yourself

Use your preventive care benefits

Regular checkups and exams can help you stay healthy and catch problems early — when they are easier to treat.

That is why our health plans offer all the preventive care services and immunizations below at no cost to you.¹ As long as you use a plan doctor, pharmacy or lab, you will not have to pay anything. If you go outside the plan, you may have out-of-pocket costs.

If you are not sure which services make sense for you, talk to your doctor.

Preventive vs. diagnostic care

Preventive care helps protect you from becoming sick. If your doctor recommends services even though you have no symptoms, that is preventive care. Diagnostic care is when you have symptoms and your doctor recommends services to find out what is causing those symptoms.

Adult preventive care

Preventive physical exams
